

"Are you aware of Queensland Workplace Health and Safety Regulations and Codes that prohibit waste collection vehicles from operating within EXCLUSION ZONES near powerlines?"

On completion of this training participants will receive a Certificate of Awareness, for undertaking 'Working Safely Near Overhead Electrical Cables' Training. Participants employers can then apply to any of the Electrical Networks in Queensland for the status of Authorised Person, which permits the operation of waste collection vehicles up to the Exclusion Zone for Authorised Persons.

In addition, the following unit of competency from the Asset Maintenance - Waste Management Training Package is covered in part, by this course: PRMWM63A - Apply safe operational practices to vehicle contact with overhead cables and assets.
